

Ranui Community Response Plan

This is a living document that contains a list of information created by your community, for your community. It outlines the local resources, facilities, and people that can help in an emergency.

Sharing this information will help everyone in the community understand how to support one another when it matters most.

Facility map

Porirua East School, 8 Martin St, Rānui

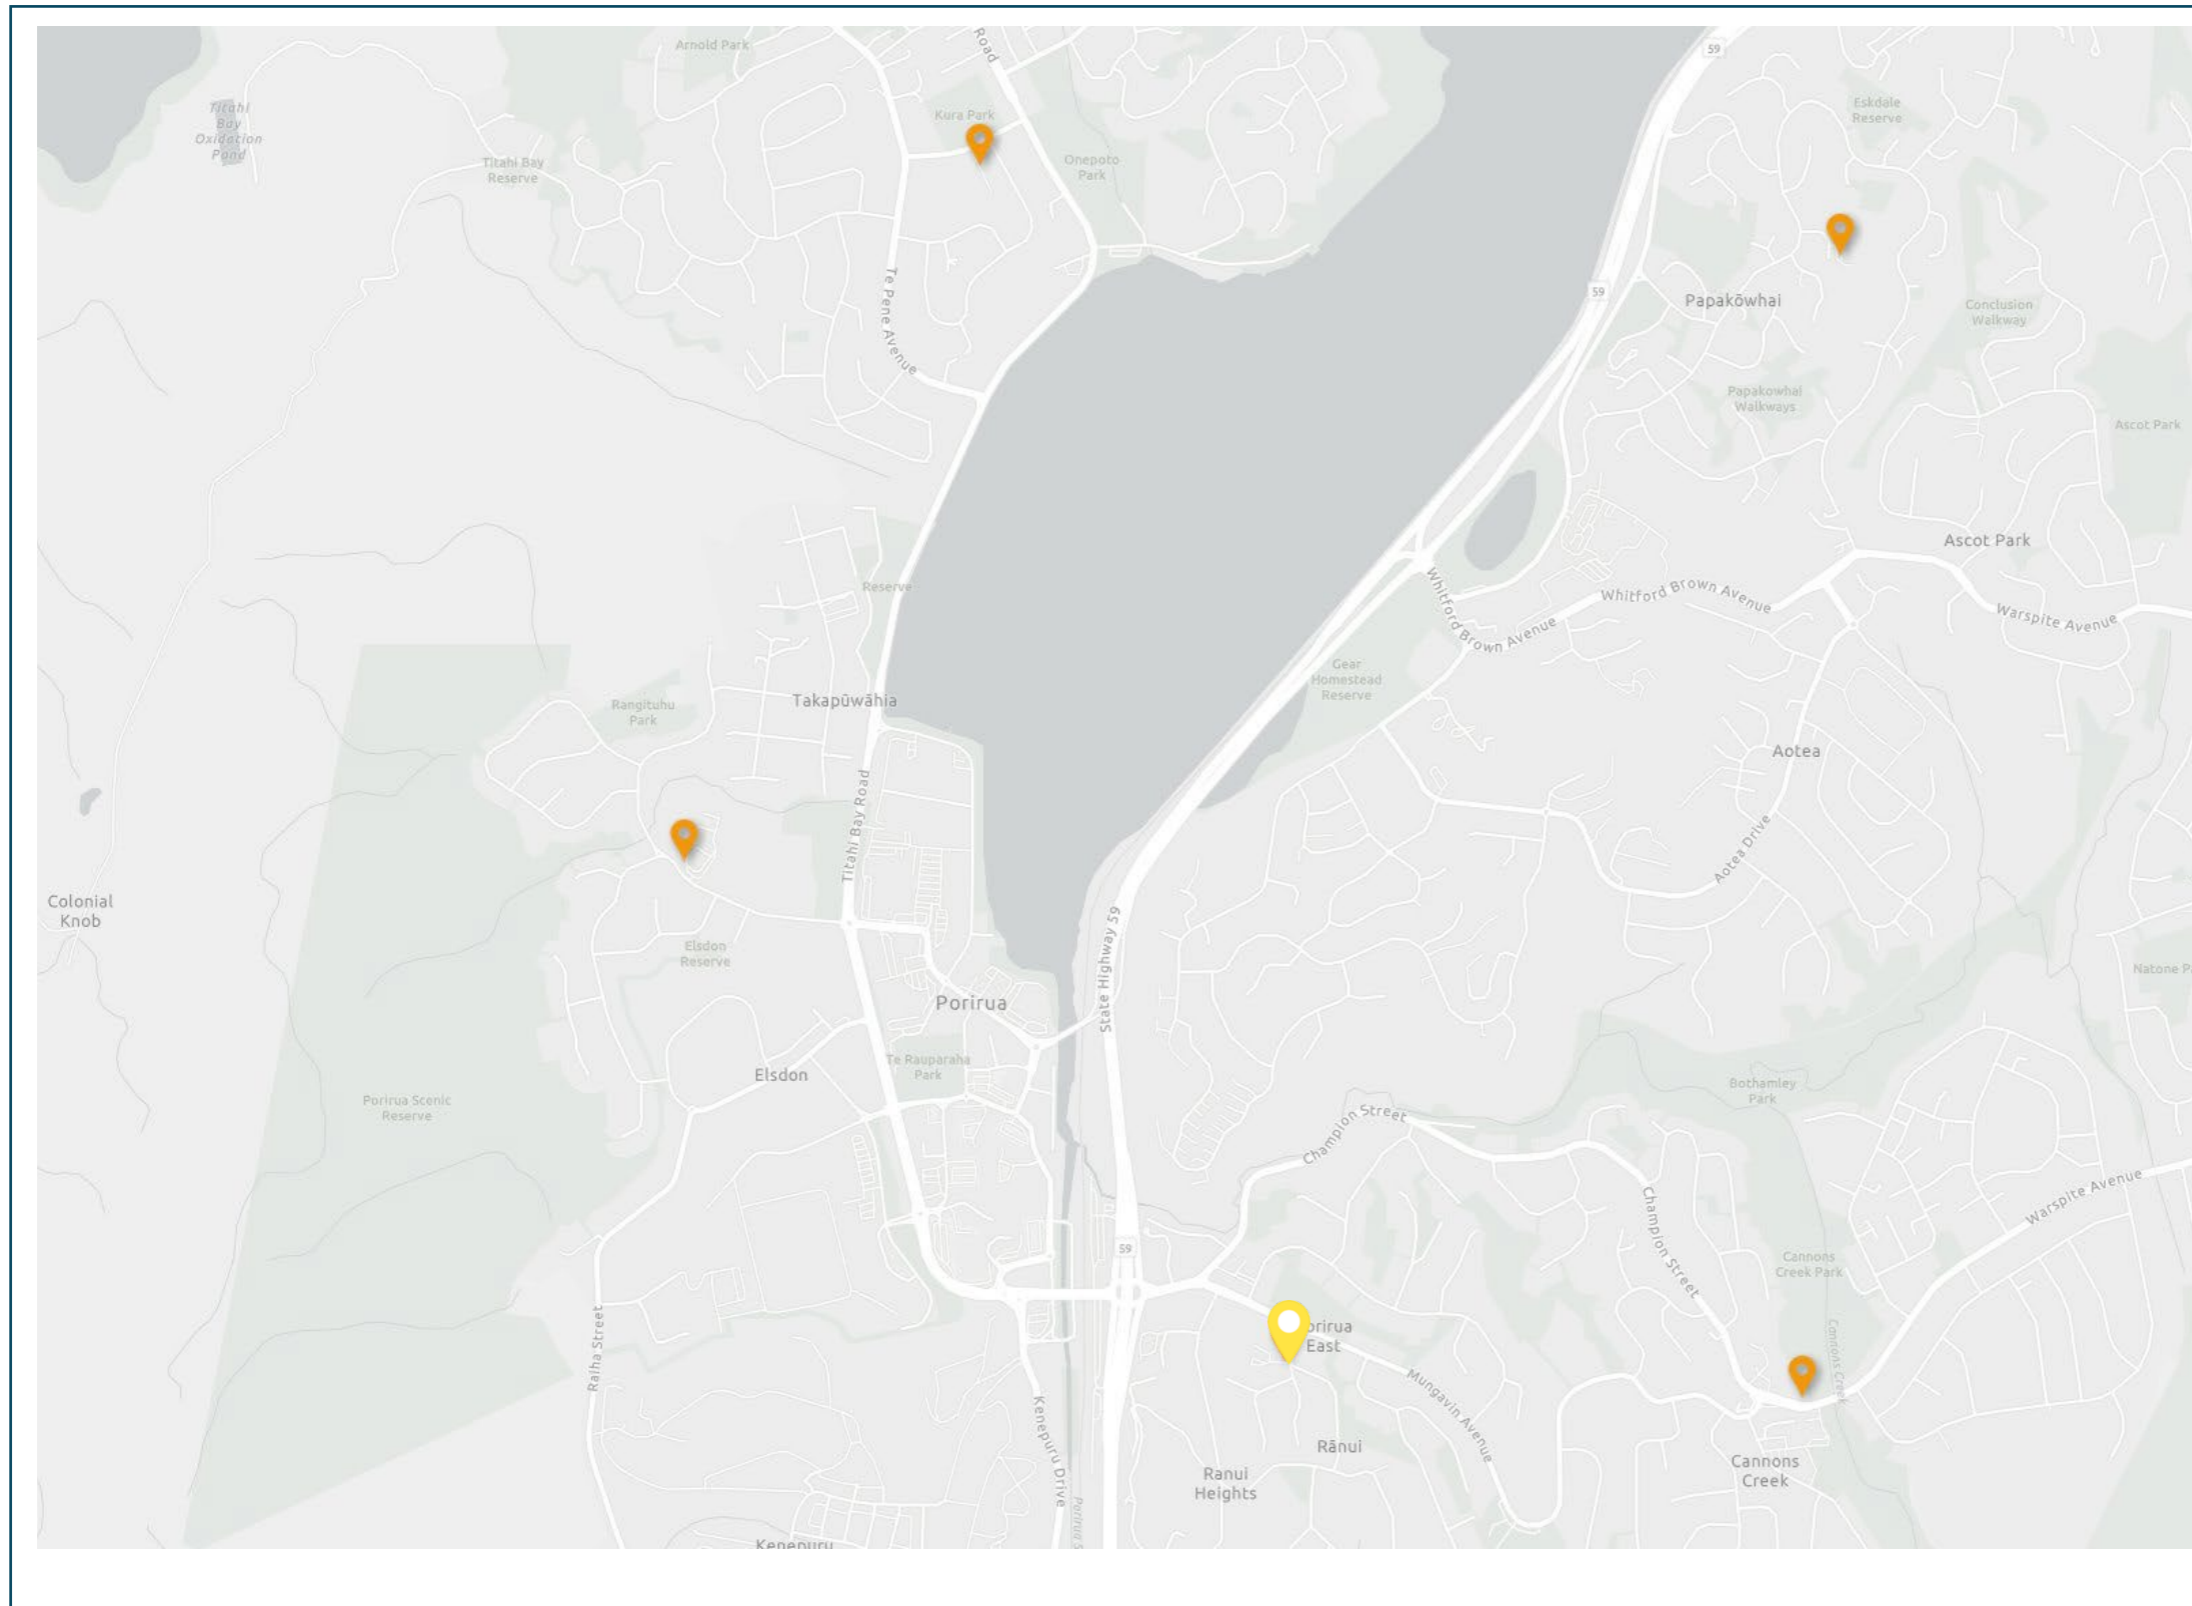

MAP KEY

-  Hub kit location
-  Emergency water tank
-  Suggested space
-  Do not use this space

Please respect this facility and the contents inside. This is a privately owned property that has been offered to the community for disaster response.

Coordinate with neighbouring Community Emergency Hubs

Local resources can be shared with nearby communities, so communicate with your neighbouring hubs to work out the most efficient use of the available resources.

Document overview

The local resources and ideas outlined in this document were identified during community planning workshops. These were grouped into the categories listed below:

- > Local resources
- > Local vulnerabilities
- > Checking on who and what has been affected
- > Medical assistance
- > Shelter
- > Water
- > Food
- > Animal Welfare
- > *For Sanitation refer to Section 5 in the Hub Guide*

Community Response Plan and Emergency Hub Guide

This Community Response Plan works alongside the Community Emergency Hub Guide. The Hub Guide provides guidance on how your community can organise and support one another during an emergency. Use the Hub Guide and your Community Response Plan together to organise your community response. You will find

the Hub Guide in the Hub kit along with Hub role lanyards, stationery, a map, an AM/FM radio, and a VHF radio.

Responding as a community

Your community has all the skills, resources, local knowledge and relationships to support one another during an emergency. You can utilise these by working together at your local Community Emergency Hub. Use this document as a starting point for solutions to community needs and your response as a community.

If you are opening a Hub it might pay to think about bringing some basics, such as:

- > First aid kits
- > Blankets
- > Torches
- > Batteries
- > Radio
- > Water
- > Tea, coffee, milk
- > Food
- > Toilet paper
- > Buckets
- > Rubbish bags
- > BBQ/camping cooker

Your Local Council

During a major emergency, your local council will coordinate the response from their Emergency Operations Centre. An Emergency Assistance Centre may also be set up to provide access to government and council support services.

Local resources

Your community has identified the following local resources that could be useful for various purposes during an emergency.

Ensure you have permission from the facility or resource owner before using.

Places and spaces

- > Belmont Motor Lodge
- > Bothamley Park
- > Brandon Intermediate School
- > Cannons Creek Park and swimming pool
- > Cannons Creek School
- > Cardiff Park
- > Corinna School
- > Glenview School
- > Hereford St Chapel

- > Holy Family School
- > Jade Court Motel
- > Jehovah's Witness Church
- > Maraeroa School
- > Mungavin Hall
- > Porirua College
- > Porirua Park
- > RSA Hall
- > Russell School
- > Seventh Day Church
- > Tokelau Hall
- > Windley School

Groups and networks of people

- > Alternate School – Cannons Creek
- > Brandon Intermediate School
- > Cannons Creek Boxing Academy
- > Cannons Creek School
- > Corinna School
- > Glenview School/Childcare
- > Holy Family School
- > Maraeroa School
- > Neighbourhood Watch
- > Pacific Health
- > Porirua College
- > Porirua Gospel Chapel

-
- > Public notice boards –Porirua Park, Ranui Park, Bothamley Park, & outside the schools
-
- > Ranui Residents Association
-
- > Russell School
-
- > Samoan Seventh Day Adventist Church congregation
-
- > Social media – multiple Facebook pages
-
- > Te Waka Whaiora Trust
-
- > Windley School

Services in the community

- > Cannons Creek Pharmacy
-
- > Freedom Church
-
- > Ora Toa Medical Centre
-
- > Porirua Pharmacy
-
- > Z Energy – Ranui

Infrastructure

- > Bus services
-
- > Walkways

Local vulnerabilities

Your community has identified the following potential vulnerabilities. These may need further attention or assistance.

Places and spaces

- > Many areas prone to flooding in heavy rain – Bothamley Park, Mungavin Ave, Champion Street, as well as Maraeroa School, and Windley School

Groups and networks of people

- > Elderly residents and people with mobility challenges

- > Families with young children

Services in the community

- > Limited food resources in the community with the closest large supermarket in Aotea, or Porirua CBD.

- > No other large shops with supplies in the area

Infrastructure

- > Roads become heavily congested during any event where SH1 or SH58 is affected

Checking on people and damage

Everyone in the community is checked on after an emergency – whether it's for rescue and medical assistance, or just basic support and information.

- > Contact everyone in the community as soon as possible.
- > Record and report information on people and damage back to the Hub.
- > Regularly check everyone in the days following the event as people's circumstances may change.

How can you make sure that everywhere has been checked?

- Start with known affected areas or groups that might need extra assistance.
- Draw upon any local lists and knowledge.
- Coordinate a street-by-street, house-by-house check. Use the area maps in the hub.
- Record any information on the impact to the community. For example, status of roads, building damage, and peoples unresolved needs.

Report the information back to the Information Coordination person at the Hub.

Staying in contact with people as outlined in task one should be done frequently, as peoples circumstances can change after an event.

If you can't give someone immediate assistance, collect information about their needs and bring that back to the Hub. See if you can find an answer to their needs with the resources available in your community.

What groups could be available to walk around the community to check on people and look for damage?

- > Church groups
- > Community Guardians
- > Cultural and ethnic groups would be encouraged to check on all those in their networks.
- > Hereford St Chapel – this church is attended by many of the refugees

-
- > Lions

 - > People who have been through WREMO workshops

 - > Rānui Residents Association

-
- > Scope – define needs and resources

 - > The Hub can set up street maps and coordinate searches, or checks by door knocks

Where should we check first?

1. Self – 2. Home – 3. Neighbours – 4. Street – 5. Then at the hub check on these priority groups
- > Those with limited English, or people who have recently arrived in New Zealand and are unaware of what to do or where to go for assistance. In a previous emergency, there were some people who lived with no power for days during winter as they were unaware of who to ask for help.

 - > Those with physical or intellectual needs

How would we coordinate this?

- > As there is a large number of churches in the area, there are also many notice boards that could be used to display information.

- > Assess – commission teams to assess in priority order to needs and resources available and then broker people's needs with available resources.

- > Coordination could take place at the Community Emergency Hub Porirua East school for residents in Rānui.

- > Meet – needs with resources

- > Prioritise – needs with resources

- > Review – that needs are being met

Medical Assistance

Community members who need medical assistance are directed to medical assistance.

- > Identify and coordinate community resources that can be used to assist and treat the injured.
- > Identify and check on people with day-to-day medical needs.
- > Direct the community to medical providers that are known to be open.
- > Identify and coordinate people in the community with medical skills who can help.

In all life-threatening situations, attempt to contact the emergency services by calling 111.

Injured and sick people should go to the nearest open medical centre first.

People with first aid skills should go to their nearest open medical centre or go to the Hub.

Check on your neighbours and people who may need extra help.

Look after your hygiene – wear gloves when touching body fluids.

Find out if the local medical providers are open and operational so that you can let the community know where to go.

Coordinate transportation for those who are in need and cannot get to the medical centre.

Where are the nearest medical providers?

- > Ora Toa Mungavin Medical Centre, Mungavin Ave
- > Porirua Union & Community Health Service Inc
- > Wellington SCL Medical Laboratory, 219 Bedford St, Cannons Creek

Where else could we provide medical assistance if the above facilities are not available?

- > Brandon Intermediate School Dental Clinic
- > Cannons Creek School Dental Clinic
- > Champion Dental Centre, 4 Champion St.
- > Porirua East School Dental Clinic

Who can help provide medical assistance?

- > Any volunteers who have First Aid certification
- > Counsellors
- > Doctors, nurses, paramedics or first aiders who live in the community
- > Midwives
- > Pharmacist
- > Registered nurses at care facilities
- > Vets, dentists

How do we get people to medical assistance or medical assistance to people?

- > This would need to be coordinated by the community, and the medical providers.

Where can we get extra supplies?

- > Cannons Creek Pharmacy, Champion Street

- > Defibrillators & first aid kits
- > Fire station – first aid kits
- > First aid kits in houses and personal cars
- > Porirua Pharmacy, 18 Mungavin Ave.
- > Schools - first aids kits

Where are there Defibrillators?

- > Tokelau Congregational Christian Church
- > Wellington Free Ambulance - Porirua Station
- > Fire Station Porirua
- > Ora Toa – Mungavin Medical Centre
- > Z Mungavin Ave

Shelter

Ensure everyone in our community has somewhere safe and comfortable to stay.

- > Find places where people can shelter from the weather if they can't stay at home.
- > Find comfortable places where people can rest and sleep.

Small repairs may make homes safe enough to stay in.

If people need to leave their homes, encourage them to take as much bedding as possible.

Encourage people to stay with friends and family if possible. Ask neighbours or others in their street if they have a spare room.

People in the community may have spare beds, air mattresses, and couches available to offer people without a place to stay.

Check gas and electricity supplies are safe to use. Turn gas off at the meter/main if unsure. Turn electricity off at mains/switchboard and water at the toby on the footpath. Leaks including water, should be investigated.

Many people will be able to stay in their own homes, and this is ideal as people are much more comfortable in a home environment. Are there simple repairs that could be done to make a home safe enough for people to stay there.

You may have visitors to your community who don't live locally – commuters, shoppers, employees etc. These are the people most likely to need accommodation in your community.

Encourage people to make their spare beds and guest rooms available.

Don't wait for the perfect solution, shelter from the weather is a priority over comfort. Bad weather means the need for shelter is much more urgent than on a warm, sunny day.

Tell the Emergency Operations Centre (through the Communication desk) the number of people who need accommodation.

Who could help make people's homes safe, weatherproof, and comfortable?

- > Local tradespeople
- > DIYers

Where can we get resources to make repairs?

- > Some materials for temporary fixes can be found within the community

- > There are few resources in East Porirua, they would likely have to get most materials from Bunnings or Mega Mitre 10 in the Porirua CBD.

Where could we get bedding and clothing supplies to keep people warm and comfortable?

- > Residents

- > Second hand stores & Op shops

- > Tents – privately owned

What open spaces could accommodate temporary shelter?

- > All the schools in the area have large fields that could be used after communicating with the school.

- > Cannons Creek Park could be used, if not needed by the Council.

- > Encourage people to put up a tent in their own yards.

What facilities could be used for temporary shelter if people can't stay at homes or with friends?

- > Encourage people to go to family, friends, and neighbours.

- > Porirua Park and Mungavin Hall have been pre-identified as sites the Council could use to set up an assistance centre if it was needed, so these shouldn't be relied on by the community.

- > Some of the churches in the area may be able to open their doors to let people shelter inside. Freedom Church in Cannons Creek has large spaces and many rooms that would be available if needed.

Water

Our community has access to clean water for drinking and water for cooking and hygiene purposes.

- > Ensure everyone knows how to treat drinking water.
- > Coordinate community water sources for drinking, cooking and hygiene.
- > Arrange a place in the community where water can be distributed if needed.

Water reservoirs are all around the region but automatically seal if lines are damaged. Technicians must manually attend to the valves. This will take time so look for other sources of water within the community right away.

Some schools and community centres have large water tanks installed. If there is one in your community check to see what their plan is for using the water.

Local streams and open bodies of water are not reliable sources of clean water. Chemical pollution and heavy metal contamination is not removed by boiling water or adding bleach.

Treat any non-bottled water. Boil it if you can, if not use bleach to treat.

BEST CHOICE: BOIL. Boiling water will kill most types of disease-causing organisms. If water is cloudy, filter it through a clean cloth. Boil water for one minute, let it cool, and store it in clean containers with covers.

IF YOU CAN'T BOIL: ADD BLEACH. Bleach will kill some (not all) types of disease-causing organisms. Just like boiling, filter cloudy water through a clean cloth first. Use only regular, unscented, liquid household bleach. Add two drops of bleach per litre of water. Stir well, let stand for 30 minutes before using, then store in clean containers with covers.

Where can we find drinking water?

- > Household stored water
- > Other than Holy Families School, all schools have at least one 25 000L water tank that can be used to provide water to the community.

How do we get water to people who are unable to leave their homes?

- > Using containers and transport by cars, trailers, bikes, 4-wheel drive cars, trucks etc.
- > Wheelie bins, wheelbarrows, or push chairs to carry large containers

Where can we find water for washing and cleaning?

- > Cannons Creek Swimming Pool.
- > Kenepuru Stream, running through Bothamley Park – washing and cleaning should not be done in the stream, but water could be collected from here.

What water supplies should be avoided or need treatment before drinking?

- > Don't drink swimming pool water, use for washing instead
- > Grey water
- > Need sources of chlorine/plain bleach from supermarkets
- > Pharmacy may have water treatment tablets
- > Pool water
- > Springs and waterfalls
- > Stagnant water
- > Stream water
- > Streams below the highest house will be contaminated with road-run-off and/or sewage
- > Treat water from rainwater tanks

What places would be good distribution points?

- > Any of the schools.
- > The shopping areas in both Ranui and Cannons Creek.

Food

People in our community have enough food to sustain them.

- > Organise a way to feed large groups of people who are displaced or do not have food of their own.
- > Coordinate food supplies in the community.

Assist with the coordination of food supplies in the community where necessary.

Encourage people to share food with those who don't have access to it.

Tell people to use foods in the refrigerator first, then those in the freezer, and finally dried goods from the pantry.

Pool community resources to feed everyone

- Street BBQs
- Have places where excess food can be coordinated from

What food suppliers and providers are there?

- > The closest large retailer of food is in Porirua CBD – Countdown, New World, or Pak n Save. These supermarkets have a limited supply, and may not be able to get more food in the short term.
- > There are Community Pantries run from the Salvation Army (Warspite Ave), and the corner of Mungavin Ave and Bedford given time.
- > There are several fruit trees in Bothamley Park, as well as both private and community gardens throughout Cannons Creek and Ranui. There are many small food retailers in Cannons Creek and Ranui.

Where else could we find food?

- > The closest large retailer of food is in Porirua CBD – Countdown, New World, or Pak n Save. These supermarkets have a limited supply, and may not be able to get more food in the short term.
- > There are several fruit trees in Bothamley Park, as well as both private and community gardens throughout Cannons Creek and Ranui.

How could we organise to feed large groups of people?

- > Many of the churches have facilities for cooking and feeding their congregations. They do this regularly and would be a great asset.

- > Organise communal cooking – more efficient to cook for more people at once

- > Promote taking people home and cook together – reduce gas consumption

- > Use perishable food first

Where can we get cooking and catering supplies?

- > Kitchens at many of the churches

- > Porirua College – large class kitchen

How do we get food to people who are unable to leave their homes?

- > Chilly bins

- > Churches & Service clubs – can help with distribution of food to needy

- > Takeaway containers from shops

- > Transport – cars, trucks etc.

Animal Welfare

Animals in our community have access to medical assistance, shelter, water, and food.

- > Identify and coordinate locations and people for medical assistance for animals
- > Identify locations for animal shelter
- > Identify potential sources of food and water
- > Keep a record of lost and found pets

What animal services are in the area? (e.g., veterinary clinics, animal control, shelters, stock agents, stock truck companies)

What facilities could be used for temporary shelter for animals?

Where could we find drinking water for animals?

Where could we find food for animals? (companion animals & production animals)
